Ladies and Gentlemen

It is a pleasure to announce that next, 9th Conference COE2006, is organized by the Department of Electronics of Stanisław Staszic AGH University of Science and Technology, Faculty of Electrical Engineering, Automatics, Computer Science and Electronics in collaboration with Polish Society of Sensing Technics.

We hope that beautiful surrounding and proximity of beautiful polsh mountains Tatry will create a pleasant background for presentation of the latest works results, fruitful discussions and inspiring exchange of experiences in all presented range of trials, newest results of our works and discussions.
topics

Preliminary information

Conference will be held 19-22 june 2006 y. at beautiful hotel „Siwana” at Zakopane-Kościelisko.

Invited speakres will presented in english. Accepted abstracts will be presented in polish or english.

CONFERENCE SCOPE

1. Physical concepts of sensors, modeling and simulation
2. New materials and technologies
3. Physical quantity sensors
4. Chemical sensors
5. Biosensors
6. Optoelectronic sensors
7. Fiber optics based sensors
8. Micro Electro Mechanical Systems and Micro OptoElectronics Mechanical Systems
9. Micromechanics i microfluidycs
10. Assembly technologies, diagnostics, quality, reliability and standardisation

Conference materials

Accepted abstracts will be presented at conference materials. Selected works will be published at Measurement Science and Technology (IOP) and at Proc. of SPIE (The International Society of Optical Engineering).

Deadlines
