

June 13-15, 2016  
KRAKÓW

#### Honorary Chair

**Tomasz Szmuc**  
AGH Univ. of Science & Technology,  
Poland

#### General Co-Chairs

**Tobi Delbruck**  
ETH Zurich,  
Switzerland  
**Marek Miśkiewicz**  
AGH Univ. of Science & Technology,  
Poland

#### Organizing Chair

**Richard Zurawski**  
ISA Group, USA & AGH Univ. of  
Science & Technology, Poland

#### Program Committee Co-Chairs

**Antonio Visioli**  
University of Brescia, Italy  
**Laurent Fesquet**  
Grenoble Institute of Technology,  
France

#### Work-in-Progress Chairs

**Alberto Leva**  
Polytechnic University of Milan, Italy  
**Nicolas Marchand**  
CNRS-GIPSA-lab Grenoble, France

#### Special Session Co-Chairs

**José Luis Guzmán Sánchez**  
University of Almería, Spain  
**Sylvain Durand Chamontin**  
INSA Strasbourg & Icube,  
France

#### Tutorial Chair

**Piotr Augustyniak**  
AGH University of Science and  
Technology, Poland

## Second International Conference on Event-based Control, Communications & Signal Processing

Call for Papers to Special Session SS03

# Event-based Vision and Robotics

Special Session Organizers:

**Thibaut RAHARIJAONA**, [thibaut.raharijaona@univ-amu.fr](mailto:thibaut.raharijaona@univ-amu.fr)  
Aix-Marseille University-CNRS, ISM, Biorobotics, Marseille, France

**Sylvain DURAND**, [sylvain.durand@insa-strasbourg.fr](mailto:sylvain.durand@insa-strasbourg.fr)  
INSA Strasbourg & Icube, Strasbourg, France

**Nicolas MARCHAND**, [nicolas.marchand@gipsa-lab.fr](mailto:nicolas.marchand@gipsa-lab.fr)  
University of Grenoble-CNRS, GIPSA-lab, Grenoble, France

**Franck RUFFIER**, [franck.ruffier@univ-amu.fr](mailto:franck.ruffier@univ-amu.fr)  
Aix-Marseille University-CNRS, ISM, Biorobotics, Marseille, France

#### Aim and scope:

All embedded miniaturized networked systems require novel asynchronous versions of the current time-triggered sensors, actuators and algorithms.

At this special session, it is proposed to present the latest experimental studies on methods of optimizing the resources and the efficiency of event-based solutions to actuation, sensing, computation and communication problems.

In the field of robotics, one of the most promising recent alternatives to the "computer vision" approach consists in mimicking biological visual sensors, using methods based on asynchronous time-stamped events.

In order to implement event-based sensors on event-based robots, it will be necessary to develop electronic event-driven computing devices and new event-based control laws and algorithms. Event-driven actuators which can be integrated into the sensorimotor chain would also be an asset. The aim of the overall design would be to reduce the computational and communication load without any loss of efficiency.

#### Topics within the scope of the Special Session:

This special session will focus on event-based visual and robotic applications of the following kinds:

- Integrating event-based visual sensors into robotic/mechatronic applications;
- Implementing event-based strategies for innovative closed-loop control;
- Optimizing the computational and communication resources using event-based approaches;
- Applications in the fields of biologically inspired sensing, vision and robotics.

**Submission of Papers:** The working language of the conference is English. The special session papers are limited to 8 double column pages in a font no smaller than 10-points. Manuscripts must be submitted electronically in PDF format, according to the instructions contained in the Conference web site.

**Further Information:** EBCCSP 2016 Conference Secretariat: Tel: + 48 12 617 3034, Fax: + 48 12 633 2398; Email: [ebccsp16@agh.edu.pl](mailto:ebccsp16@agh.edu.pl)

**Paper Acceptance:** Each accepted paper must be presented at the conference by one of the authors. The final manuscript must be accompanied by a registration form and a registration fee payment proof. All conference attendees, including authors and session chairpersons, must pay the conference registration fee, and their travel expenses.

**No-show Policy:** The EBCCSP 2016 Organizing Committee reserves the right to exclude a paper from distribution after the conference at IEEE Xplore if the paper is not presented at the conference.

#### Author's Schedule:

<i>Deadline for submission of special sessions papers:</i>	March 20, 2016
<i>Notification of acceptance of special sessions papers:</i>	April 10, 2016
<i>Final manuscripts due – special sessions:</i>	May 1, 2016
