Off-topic (DropBox Request)

Dear anonymous visitor,

For some time I am actively using DropBox storage. This is a virtual disk which allows me to keep in a cloud different useful stuff. Recently, I noticed that I can enlarge the capacity of my DropBox storage, if someone signs up for DropBox via my recommendation link. So, if you plan to join DropBox solution or you just want to try how it works, please make me a favor and do that via this [recommendation link](#). BTW: person who register into DropBox via recommendation link gets additional 250MB of storage for free!

Thanks Wikipedia!

In every day work I use Wikipedia. I am a fan of this project! That's why I would like to say:
